

Xamia Arc's Vintage Inspired Halloween Crafts - Patterns

Thank you so much for downloading my little pattern-book!

Don't worry about printing this page, it's just here for the printing instructions to be included. You can also feel free to separately print the pages for the crafts you want to make.

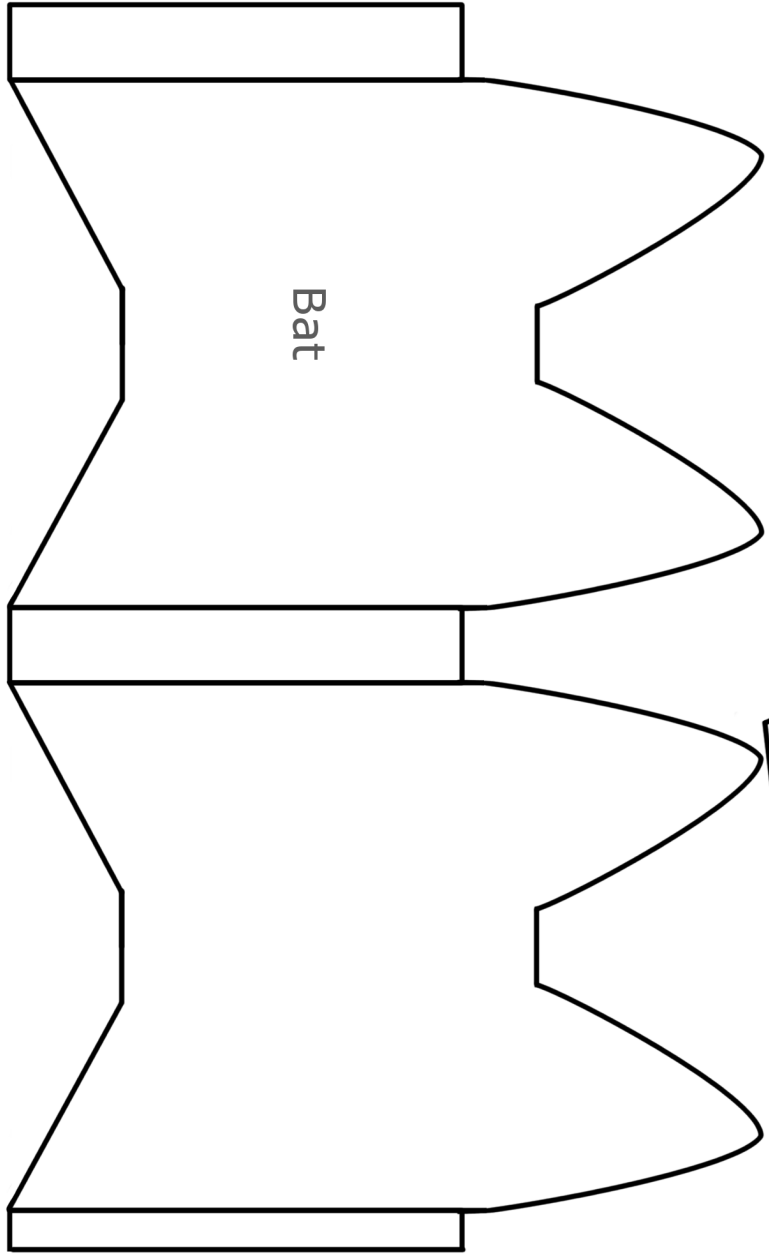

For the Pumpkin - Print out onto orange coloured paper or use the measurements on the image to draw out your own.

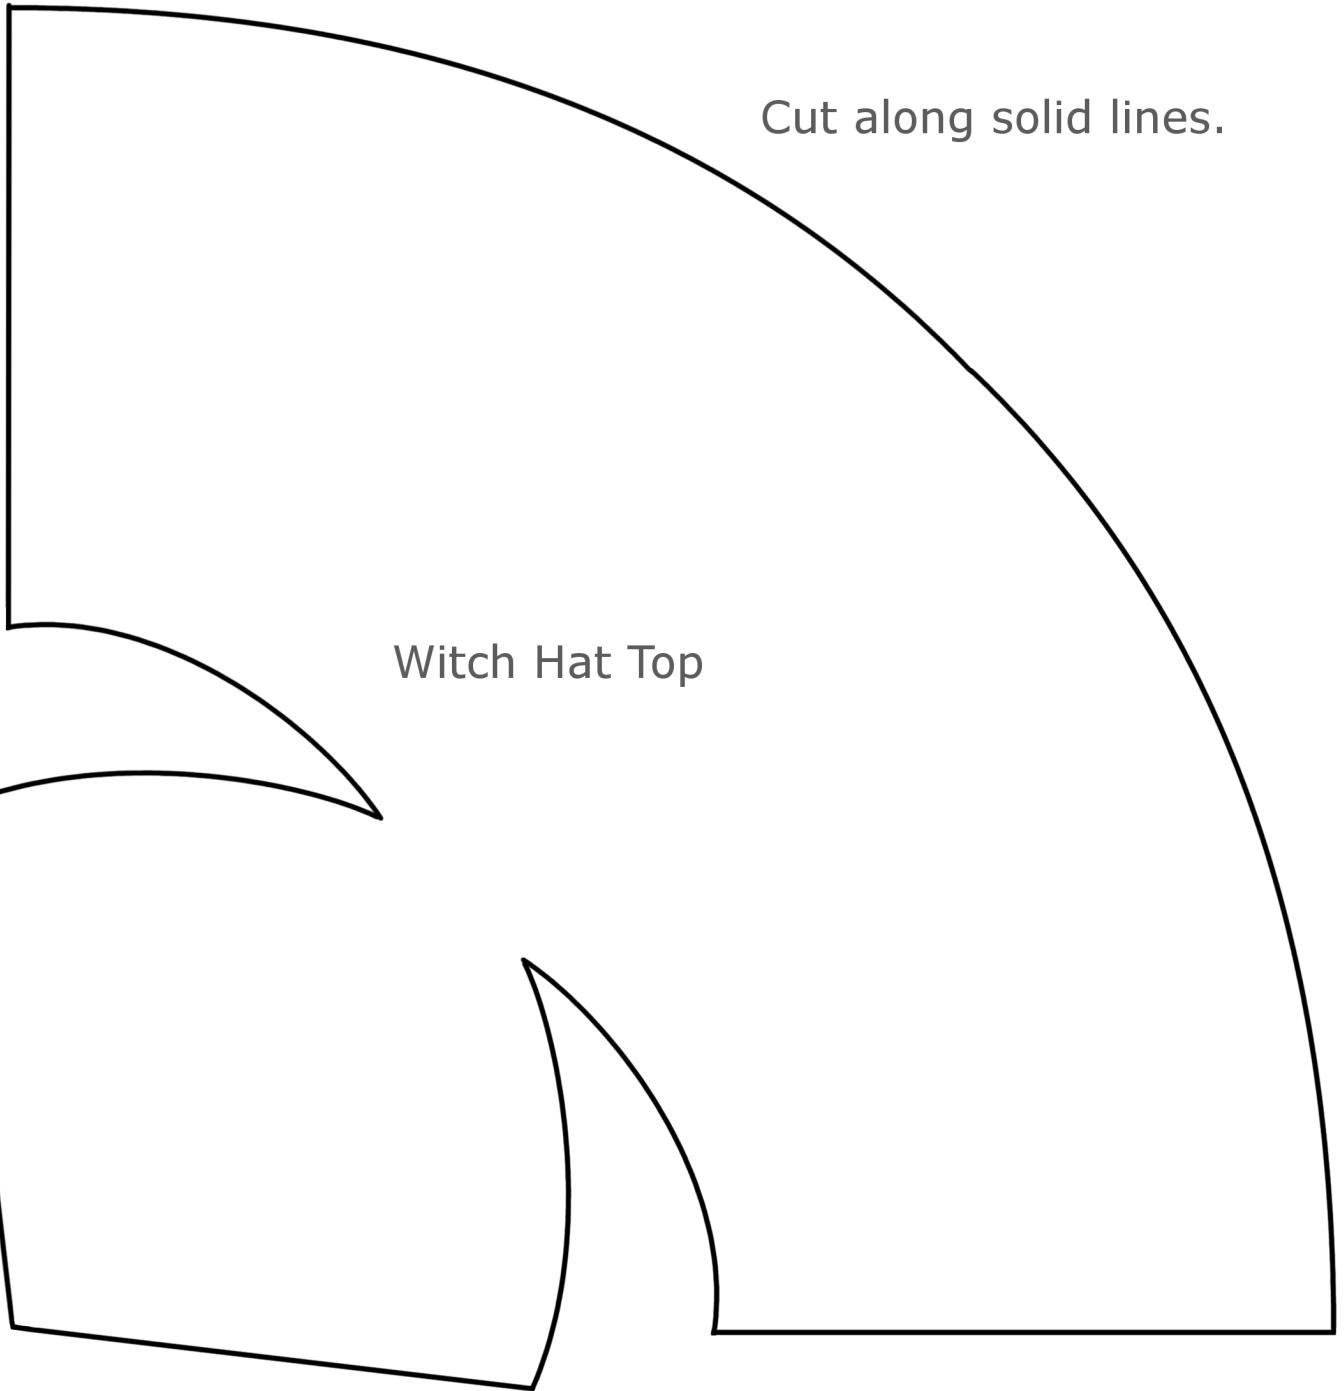

For the Pom-poms - Print out onto paper and cut a second copy onto some thick card. This is on the same page as the Pumpkin so if you printed that on orange just use those.

For the Bat - Print out onto black card (the ink should still be visible) or cut out and trace onto the card. Cut wings out of black or otherwise coloured paper, these should be strips 6cm wide, with whatever length you like.

For the Witch Hat - Print out and trace onto felt using chalk. The top is on the same page as the bat so if you printed onto black card just use that.

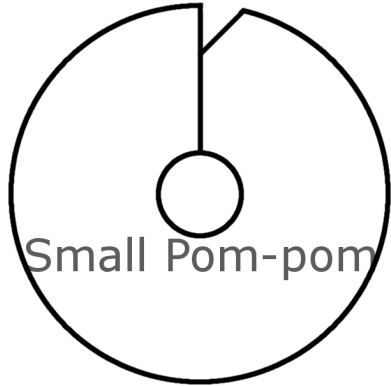

Bat

Witch Hat Top

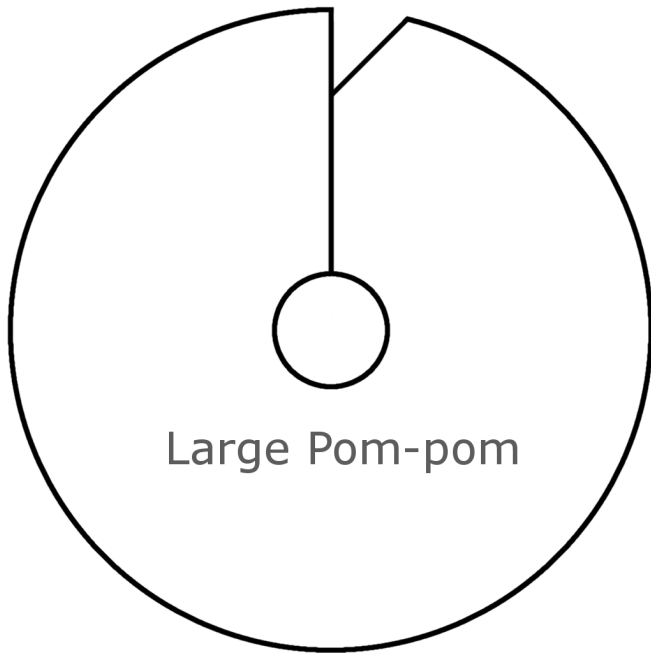

Cut along solid lines.
